Declaration of Compliance

Food Contact Compliance Assessment

Product identification

Polypropylene (PP), natural; Griffin beakers according to DIN 7056 with smooth rolled rim and printed blue graduation.

Compliance with food contact legislation

Based on the declaration issued by the original manufacturer on 14 July 2026, Bürkle GmbH confirms that the products identified above are declared to comply with Regulation (EC) No 1935/2004, Commission Regulation (EU) No 10/2011 and Regulation (EC) No 2023/2006, as applicable. The manufacturer also references Regulations (EU) No 1282/2011, No 1183/2012 and No 2017/752.

Overall and specific migration

According to the declaration, overall and specific migration values remain below the applicable legal limits when the products are used under the specified conditions. Where substances subject to specific migration limits or other restrictions are present, the applicable limits under Regulation (EU) No 10/2011 are declared to be met. No numerical test results or test reports were supplied with the declaration.

Food contact suitability and conditions of use

The products are declared suitable for long-term contact with all types of food at room temperature or below, including heating to 70 °C for up to 2 hours or to 100 °C for up to 15 minutes.

Surface-to-volume ratio and functional barriers

The stated surface-to-volume ratio used for compliance assessment is

6 dm²/kg.

No functional barriers are used.

The declaration is based on our current state of knowledge and information provided by our supplier at the time that the document was drawn up. The supplier – Bürkle GmbH in Bad Bellingen/Germany – is certified according to the standard DIN EN ISO 9001 by the DQS (German Society for Quality Assurance) since 1995. The number of certificate is 002284-QM15.
