

TOPSELLERS DISPOSABLE SAMPLERS

DispoSampler | for the highest standards in sampling

The Burkle disposable samplers of the brands LaboPlast[®] and SteriPlast[®] are used to take samples of liquids, viscous media, powders and granulates. Target point samples can be taken, all-layer and cross-section samples, as well as small and large sample quantities. Unlike conventional reusable samplers, disposable samplers do not need to be cleaned after use.

- Cleaning reusable samplers is a demanding and often complicated task, with greasy, strongly adhesive or toxic substances. Sometimes the task is even impossible
- Work processes do not have to be interrupted by cleaning
- Cross contamination is completely eliminated
- > The cleaning method does not need to be vacoverated in audits
- Time and money are saved

Burkle disposable samplers LaboPlast[®] and SteriPlast[®]

- Individually packaged
 - Production, assembly and packaging in class 7 clean room (10,000)
 - Complies with EU food requirements and FDA regulations
- Optionally sterilized by gamma rays

LiquiDispo

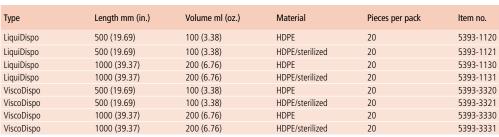

The LiquiDispo disposable sampler can be used to take samples of liquids from highly liquid to slightly viscous. An ergonomic handle makes it easier to draw the sample: up to 200 ml (6.76 oz.) can be drawn, as with a syringe.

ViscoDispo

You Tub

The ViscoDispo disposable sampler can be used to take samples of high-viscosity media up to 100.000 mPas. The ergonomically shaped handle and the very stable drawbar make it easy to draw even viscous substances.

DispoPipette

Simple disposable sampler for taking samples of low viscosity media. If the DispoPipette is inserted into the liquid opened, an all-layer sample is obtained. If it is closed while it is inserted up to the sampling point and then opened, a target-point sample is obtained. Very easy to operate. With two opening sizes (2,5 / 5,5 mm (0.10/0.22 in.)) for different viscosities.

- All-layer and target point samples possible
- HDPE
- Ø 21 mm (0.83 in.)

Length mm (in.)	Volume ml (oz.)	Material	Pieces per pack	Item no.

PowderDispo

PowderDispo is the ideal disposable sampler for cross-section samples of powdery or slightly cohesive substances. A complete all-layer sample can be taken from bags or smaller containers with the lance.

- HDPE
- Ø 21 mm (0.83 in.)

Length mm (in.)	Volume ml (oz.)	Material	Pieces per pack	ltem no.

500 (19.69)	100 (3.38)	HDPE/sterilized	20	5393-5521	N4

MultiDispo

Disposable zone samplers for taking samples from multiple layers of the sample material. Suitable

for free-flowing powders and small-grain granulates. The representative all-layer sample can be emptied directly through the open handle into a sample container.

- Easy emptying through the opening in the handle (Ø 14 mm (0.55 in.))
- HDPE
- ▶ Ø 25 mm (0.98 in.)/
- Ø tip 30 mm (1.18 in.)

Length mm (in.)	Volume ml (oz.)	Material	Pieces per pack	Item no.

1000 (39.37)	200 (6.76)	HDPE/sterilized	20	5393-4451	N4

TargetDispo

TargetDispo is used to take a target point sample at a position in the sample material that has previously been precisely determined. The sampler pierces into the powder or granulate while closed. When it reaches the sample removal point it is opened and then closed again. In this way a precise target-point sample is obtained. The sample can simply be emptied through the open handle.

- Easy emptying through the opening in the handle (Ø 14 mm (0.55 in.))
- HDPE

Ø 25 mm (0.98 in.)/ Ø tip 30 mm (1.18 in.)
